

Tokai COBEX has entered into a long-term Power Purchase Agreement with clearvise AG.

Vénisseux, 26 March 2024 – Tokai COBEX, a global manufacturer of high-quality carbon and graphite products utilized across various industries, is pleased to announce the signing of a long-term power supply agreement with clearvise AG (WKN A1EWXA / ISIN DE000A1EWXA4). clearvise AG, an independent power producer specializing in renewable energies within Europe.

Over an 11-year term, Tokai COBEX will procure all electricity generated by the Chassiecq solar park to power its two French factories in Vénisseux and Notre Dame de Briançon.

The solar park is situated in the Nouvelle-Aquitaine region (south west of France) and is anticipated to yield over 47 GWh of electricity annually. It is scheduled for connection to the grid in the second half of 2024. This corresponds to around 30% of our annual energy consumption in France and will reduce our electricity-related CO₂eq emissions by 20% per year (according to GaBi, DataBase v2023.01).

Andrzej Hotlos, CEO of Tokai COBEX: *"This marks a significant milestone in our journey towards a net-zero future and emphasises our commitment to promoting sustainable developments for our customers. With clearvise AG we found a reliable partner and we are looking forward to a fruitful, long-term relationship."*

Petra Leue-Bahns, CEO of clearvise AG, comments: *"We are very pleased to have found an internationally renowned partner in Tokai COBEX, which is committed to sustainability in the energy supply of its plants. The conclusion of the first corporate PPA is an important milestone in clearvise's portfolio strategy. We are consistently expanding our generation portfolio to optimally cover the electricity requirements of industrial customers."*

About Tokai COBEX

Tokai COBEX, a subsidiary of the Tokai Carbon Group, is globally recognized for its specialization in manufacturing high-quality carbon and graphite products. The company boasts a team of seasoned professionals who offer innovative solutions, technical expertise, and extensive knowledge in product development and application. Their core strengths lie in their deep understanding of raw materials, application know-how, and manufacturing processes across industries such as primary aluminum, pig iron, silicon metal, and ferro-alloys. With a well-established service network, Tokai COBEX efficiently caters to regional and industry-specific needs (www.tokaicobex.com).
